Find Books

Koha Basic Search Enhanced

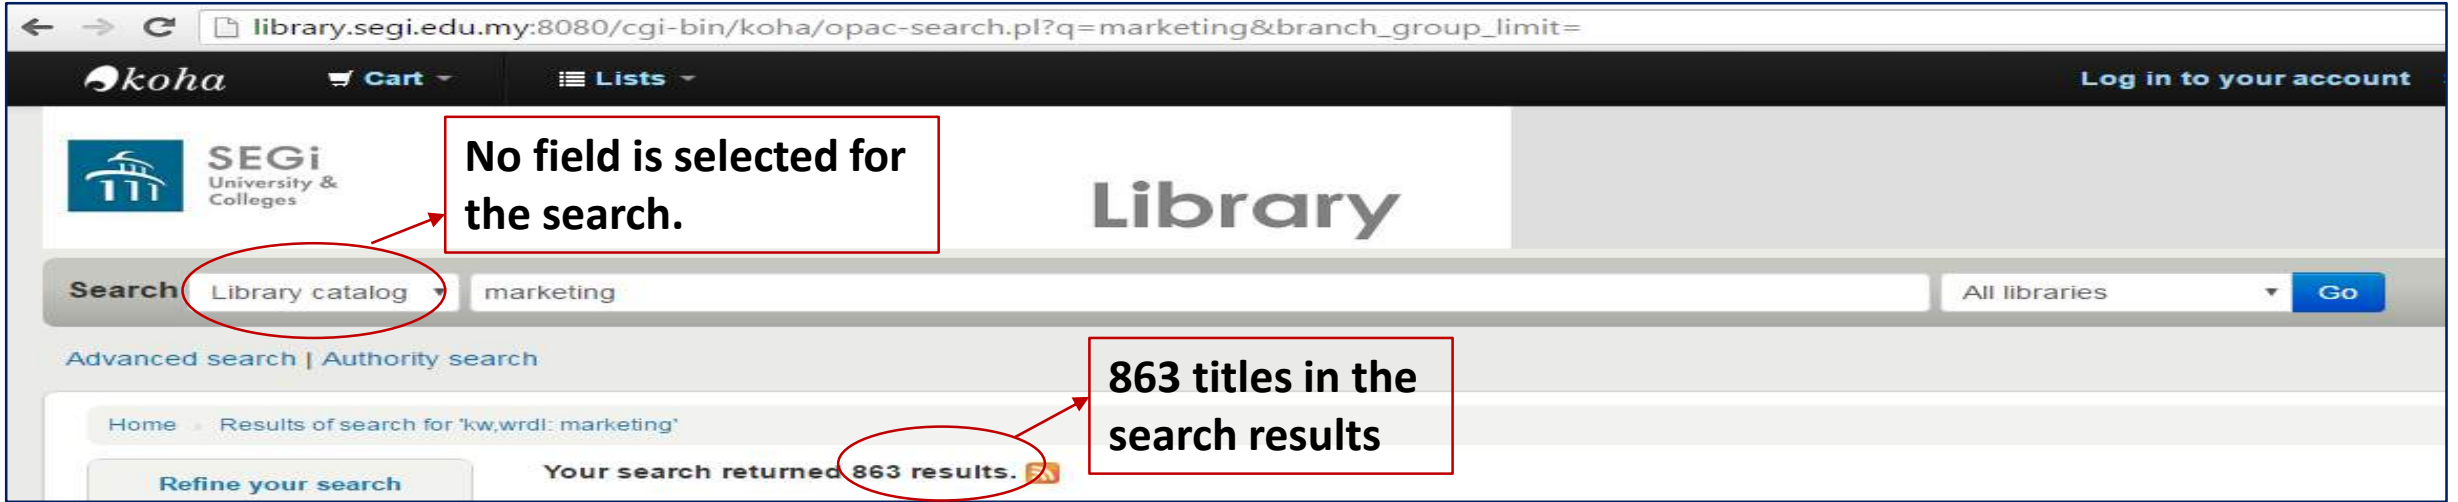

Koha Find Books Basic Search Enhanced

Within a library catalog or record there are fields such as: Title; Author; Subject; ISBN number; Series; Call Number.

Selecting different fields for a same keyword e.g. marketing, will give different number of results. In fact the search results will be narrowed down (e.g. in the following slide).

The screenshot displays the SEGi Library search interface. At the top left is the SEGi University & Colleges logo. The main search bar contains the text 'Library catalog' (highlighted with a red box and an annotation 'Use dropdown to select Fields e.g. Title') and 'marketing'. To the right of the search bar is a dropdown menu set to 'All libraries' and a 'Go' button. Below the search bar, there are links for 'Advanced search' and 'Authority search'. The search results section shows 'Your search returned 863 results.' with a pagination bar (1-10, Next). A 'Refine your search' sidebar on the left is highlighted with a red box and an annotation 'Filters'. It contains sections for 'Availability' (with a link 'Limit to currently available items') and 'Authors' (listing 'Chartered Institute ...', 'Fifield, Paul', 'Kotler, Philip', 'Kotler, Philip', 'Worsam, Mike', and 'Show more'). The main results area shows a list of results, with the first result being 'E-Marketing / Strauss, Judy' by Strauss, Judy | El-Ansary, Adel | Frost, Raymond. Edition: 4th. Material type: Book; Format: print; Literary form: not fiction. A book cover for 'E-Marketing' is visible on the right.

Apart from different **fields** there are also various **filters** to narrow the search to refine the search to get more specific results. **The filters provided are Availability, Authors, Holding Libraries, Item Types, Locations, Series, Topics.**
